Research Interest:

Wiraphol is also interested in pharmacoepidemiology and quality of life in chronic disease especially cardiovascular disease patient according to cardiovascular disease is a major health problem worldwide. Moreover, Wiraphol interested in herbal medicine used in chronic disease. According to, patients' experiences of using herbal medicines are my other main area of research. The herbal medicine is an alternative treatment but there are many herbal products did not have the clinical effectiveness reported. Therefore, I have been studying the systematic review and meta-analysis to confirm herbal medicine effectiveness.
